

MedAppz iSuite™

**Practice Management
&
EMR Solutions**

MedAppz is an Application Service Provider (ASP) offering Software as a Service(SaaS), on our servers, utilizing our IT department. Our service is accessed via the internet.

Advantages:

- eliminates need for expensive hardware and software purchases
- no need for additional IT staff or expensive IT maintenance contracts
- software upgrades are provided as they are developed
- new program features are made available as they are launched
- deployment time is reduced from 9 – 12 months to 1 – 2 months
- eliminates need for obsolete hardware or software upgrades

Certified by: Certification Commission for Healthcare Information Technology

MedAppz iSuite cost is a monthly fee of \$585.00 per healthcare provider. MedAppz does not charge by the user only the providers. The monthly fee includes all the software functionality and features. There are no hidden or extra fees. Price for the EMR only is \$390.00 per month.

Monthly price includes:

I-Suite

The ECG waveform displays two rows of leads on a red grid. The top row contains leads I, aVR, V1, and V4. The bottom row contains leads II, aVL, V2, and V5. Each lead shows a characteristic ECG trace with a P wave, a QRS complex, and a T wave. The grid is composed of small squares and larger squares, providing a scale for the waveform.
